Signage Innovations

Macer Exterior™

Simple and Elegant Single Post and Panel Signage System

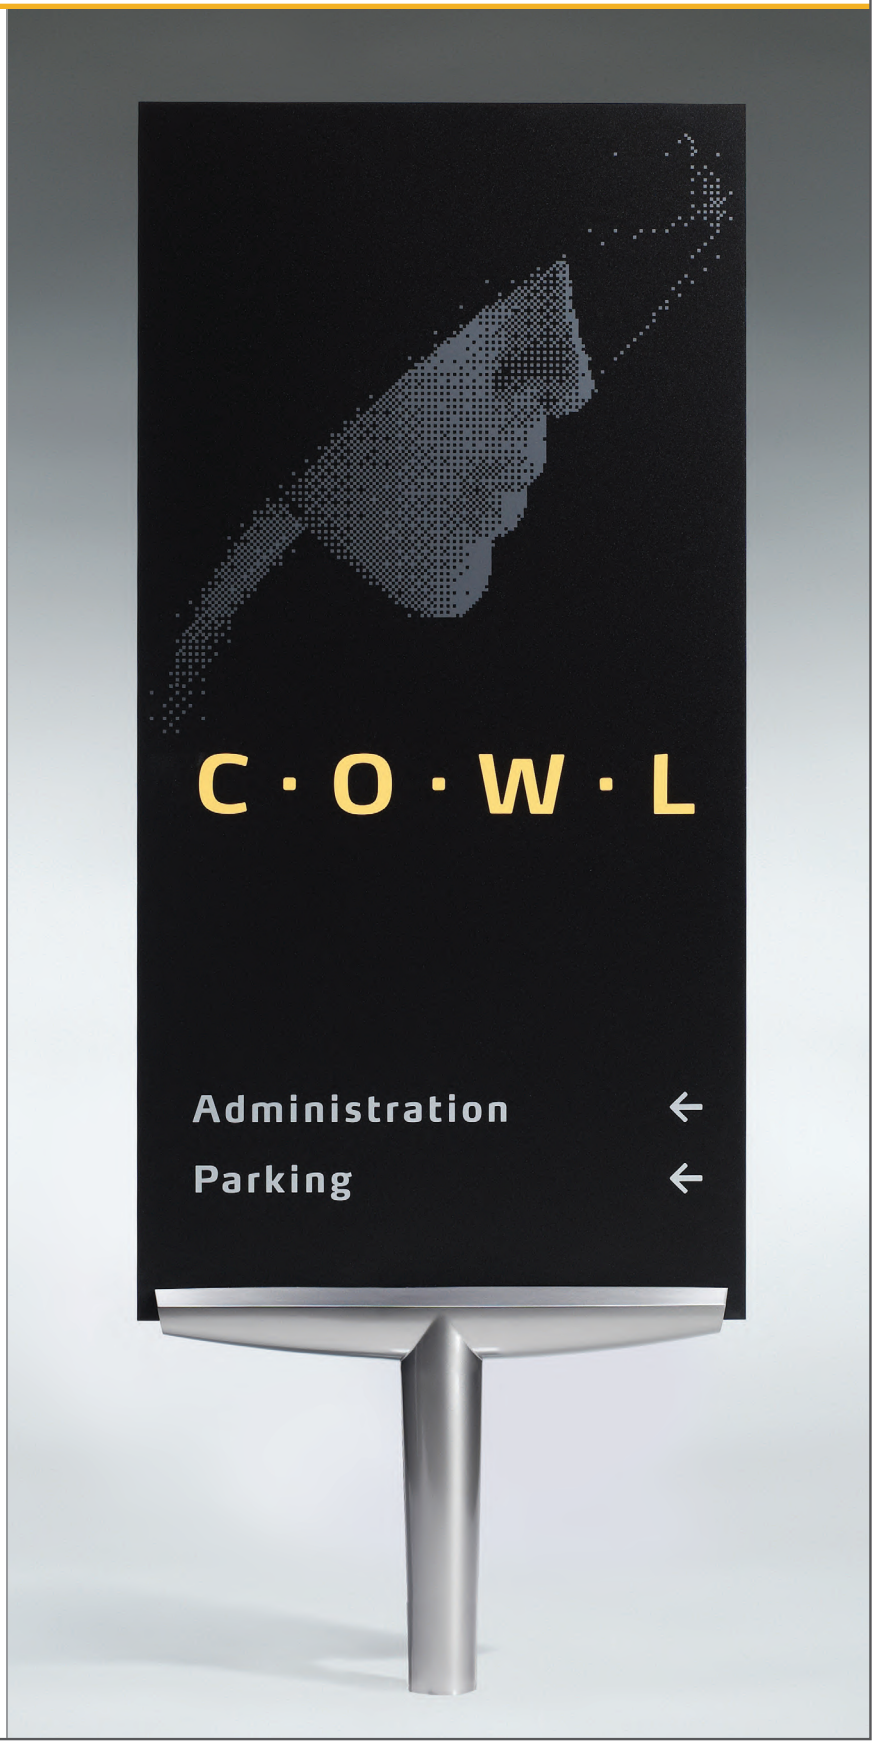
The simplicity and elegance of the Macer Exterior™ signage system makes it an ideal solution for secondary site identity and campus-wide wayfinding signage. Macer Exterior™ is comprised of three elements – a steel support for strength, a protective cover for elegance and a graphic panel to communicate your identity and wayfinding information. Due to the simplicity of its construction, almost any panel shape can be achieved. And, when combined with direct printing, digital graphics or applied vinyl text, a Macer Exterior™ solution can help create a unique and positive experience for your brand.

Macer Exterior™ is designed to resist wind and weather. Constructed from galvanized steel, etronite and painted aluminium, Macer will withstand the elements for many years. Panels can be changed to support updates to brand and wayfinding information. In addition, the durable, lead-free, baked polyester enamel finish will withstand severe weather conditions for years of trouble free service.

- Comprised of only three elements
- Available as a ground sign and wall-mounted sign
- Ideal for campus wayfinding and secondary site identity
- Graphics: Print on Panel UV cured digitally printed graphics and LTV series vinyl graphics
- Illumination option available on 49″ wide ground signs
- ISO 9001 manufacturing process
- Two year warranty on parts and labor

Sustainable Innovations

The Macer Exterior™ signage system is a durable, modular exterior solution which can be easily updated or repaired. The components can also be easily disassembled and sorted into appropriate recycling processes at end-of-life.



Modular Product Solutions

Typical Uses

- Secondary site ID
- Site directional
- Site entrance ID
- Site regulatory

Standard Features

- Steel and etronite (high-pressure laminate) comprises Macer's strong, durable inner core
- Aluminum face panels are 1.25 mm thick
- Overall height of the ground-mounted post and clamp is 22″ (558 mm)
- Overall width of graphic panel clamp is 30.5″ (774 mm)
- Panels can be shaped or cut to almost any shape
- Ground or spot illumination only, no internal lighting
- Outer graphic panel is painted aluminum and painted molded plastic on the base
- Molded parts covering the single post and clamp for the panel are painted in high gloss dark grey metallic

Custom Illumination Option

- Internal LED-powered illumination available on ground mounted post signs with 49″ width
- Single and double-sided panel illumination available

Graphic Options

- Panel finish: 140 standard paint colors, one per panel with multiple and custom colors available
- Graphic panel edge is painted black (MX57)
- Graphic method: Print on Panel UV cured digitally printed graphics or LTV series vinyl graphics

Installation

- Steel foot plate is secured to the concrete foundation with four anchor bolts
- Steel foot plate measuring 12.5″ (315 mm) x 8.25″ (210 mm) runs perpendicular to the graphic panel

Portrait Panel, Ground Mounted Post

- Double-sided graphic panel is 0.75″ thick (18.5 mm)
- Overall graphic panel width is 32.6″ (827 mm)
- Graphic panel heights:
- 16.1″ (410 mm)
- 24.4″ (620 mm)
- 32.6″ (827 mm)
- 49″ (1244 mm)
- 65.4″ (1660 mm)

Landscape Panel, Ground Mounted Post

- Sheet aluminum panels with interior extruded aluminum support ribs
- Double-sided graphic panel is 0.75″ thick
- Overall graphic panel width is 49″ (1244 mm)
- Graphic panel heights:
- 16.1″ (410 mm)
- 24.4″ (620 mm)
- 32.6″ (827 mm)

Wall-Mounted Panel

- Sheet aluminum panel with aluminum panel holder and non-locking top fitting
- Nine standard sizes available
- 8.5″(h) x 49″(w)
- 17″(h) x 49″(w)
- 23.4″(h) x 49″(w)
- 32.5″(h) x 49″(w)
- 32.5″(h) x 32.5″(w)
- 49″(h) x 23.4″(w)
- 49″(h) x 32.5″(w)
- 65.3″(h) x 23.4″(w)
- 65.3″(h) x 32.5″(w)
