

Brownfields Elementary School

Signage that Inspires and Guides

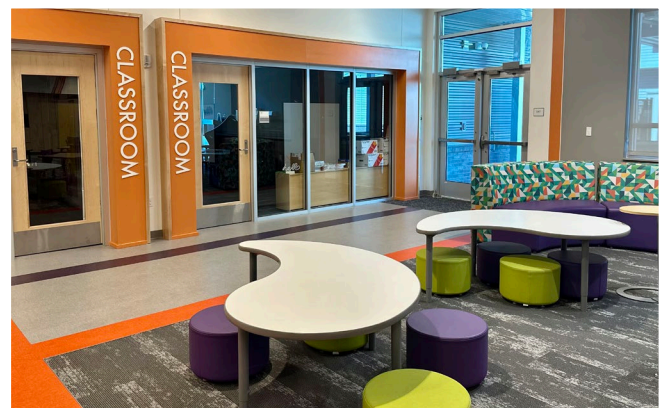

Brownfields Elementary School

Brownfields Elementary, located in Baton Rouge, Louisiana, proudly opened a new facility after 65 years of serving the Brownfields community. The modern elementary school provides a state-of-the-art learning environment for approximately 550 students, from Pre-K through 5th Grade. Designed to support the educational journey of young learners, the new building offers vibrant, welcoming spaces for students, staff, and parents alike.

To enhance navigation and foster a positive atmosphere, the project focused on incorporating colorful dimensional acrylic graphics throughout the facility. These elements not only create a cheerful and engaging environment, but also serve a critical wayfinding function in helping students and visitors easily navigate the campus.

This vibrant signage system reflects the spirit of the school's mission—fostering creativity, exploration, and a sense of belonging from the moment you step inside.

Solution Partners

Domain Architecture
CDI Solutions

ASI collaborated with Domain Architecture and CDI Solutions to bring this vision to life. By combining creative project management, expert fabrication, and seamless installation services, ASI ensured that every detail of the signage program aligned with the school's goals for functionality and visual appeal.

Thoughtfully-designed dimensional acrylic graphics not only brighten the learning spaces, but also serve as intuitive wayfinding tools, guiding young minds through their educational journey.

The result is a bright, inspiring space, where signage blends effortlessly with the architectural design, supporting the school's mission to create a dynamic and supportive learning environment.
