Product Overview

The digital signs can be delivered with or without an MMC controller. This document describes the digital signs with and without the MMC controller integrated. If no operating system (OS) or sign application is specified the MMC Controller will be delivered without any OS installed on it. The Controller does not have a CD-Rom drive and installation of OS and application software from CD-Rom requires an external USB CD-Rom drive or other media which can be used for this purpose and can communicate to a USB port. In the wall mounted panel the controller can only be integrated in the version with heading.

The digital signs includes a media player which is able to show slideshow with JPEG pictures, Video, Flash and MS PowerPoint slide show.

SlimLine Digital Wall Mount Signs

Mechanically, the sign has an outer cabinet and an inner display unit. This secures the compatibility between old and future display units that will be built to fit into the outer cabinet. Also for service purposes it is a big advantage.

Specifications

The following pages include mechanical and material specification for 32", 40", 46" and 55" SlimLine Digital Wall Mount Displays

Size specification

Throughout this document measurements will be given in both millimetres and inches. The metric measurements shown in brakets are exact whereas the English standard is calculated.

Logistics

SlimLine Digital Display signs are produced in Denmark by Modulex and ordered as a complete product.

The operating systems for the SlimLine Digital Display solution and will be preinstalled when delivered. Extension of hardware warranty and software maintenance is recommended, but shall be ordered separately.

Standard Features and Options

Typical use

- Overview signs
- Directional signs
- Information signs
- Digital Art "Chromalex"
- Branding and commercials

Benefits

- Unique design
- Frames and header in client color
- Text and graphic on frame and header panel
- Runs slideshow as stand-alone unit
- 3 years warranty on the display unit

Warranty

1 year limited return to depot warranty covering parts and workmanship. Optional 2 year (for a total of 3 years) warranty available. Optional extended software maintenance also available.

Service and Maintenance

Dismounting:

Panels are removed by pulling them perpendicular to the panel surface. The Panel can be controlled with the remote controlled delivered with the unit or form the back of the panel.

Cleaning:

When necessary the construction must be dismounted and cleaned with a vacuum cleaner.

Painted surfaces:
Use a soft cloth moistened with a mild window detergent.

Displays (polarizers):
Use absorbent cotton or a soft cloth. Recommended cleaners are water, IPA (Isopropyl Alcohol) or Hexane.

Do not use Ketone type of materials, e.g. Acetone, Ethyl alcohol, Toluene, Ethyl acid or Methyl chloride. It might cause permanent damage to the polarizer due to chemical reaction.
