

The Inn at Meadowbrook

The Inn at Meadowbrook grew out of what was once the Meadowbrook Golf and Country Club, now transformed into Meadowbrook Park. This 136-acre property is now a space for families and the surrounding community to enjoy.

The property now contains residential neighborhoods, luxury apartments, a senior living complex and a hotel, The Inn at Meadowbrook. The Inn at Meadowbrook is thoughtfully designed, tucked away from the hustle and bustle of the city in Prairie Village, Kansas.

A stay in any of The Inn's distinctive rooms comes with luxurious amenities and top-notch service. The Market at Meadowbrook is the perfect spot for dining with pastries, coffee, house-made soups and entrees.

Service Offerings

- Design-Build
- Wayfinding
- Installation

Product Applications

- InForm
- Dimensional Letters
- Custom Monument Sign
- Cast Bronze Plaque

Solution Partners

- Willoughby Design

About the Solution

ASI was brought on to collaborate on the project with Willoughby Design, the designer on the project. ASI worked closely with the designer to bring the designs to life through applicable product solutions. The project goal was to develop custom interior & exterior solutions unique to The Inn at Meadowbrook.

The signage package for the project included branding and wayfinding signage. A diverse array of sign types were implemented including dimensional letters, blade signs, a custom monument sign, overhead signage, Room ID signs and a cast bronze plaque.

The consistent design and implementation of the signage package adds a level of luxury and wayfinding ease to the tranquility of The Inn at Meadowbrook.
